SQ;ONE OF THE MOST SIGNIFICANT PROPHETIC WORDS I HAVE EVER READ OR HEARD :THE LIVING GOD HAS PRONOUNCED HIS VERDICT AND JUDGMENT ON A 'BLOOD SOAKED UNREPENTANT AMERICA'GIVEN TO PETER S -1/17/2024

In the evening of 17 January 2024, a restlessness in my spirit started and became a very strong burden/prompting from the Holy Spirit. At the 8 P.M. timeframe the Holy Spirit spoke to me gave me the following Prophetic word/message:

Holy Spirit Prophetic Word 17 January 2024: "America's Judgment: The Red Scourge"

"I ask You, America, do You value Your life? I ask You, America, do You value the very breath I gave You? I ask You, America, do You value the very lives of all the precious little children who were made in My very image? America, there is a red scourge that has been placed upon Your land. The red scourge is all the blood that has been poured out from the little ones who had no voice. Their very voice cries out this day against You, America. Who will stand up against this scourge that has filled this nation called America? The blood of the little children I had created and made in My very own image and placed My very own DNA within them flows down each and every street in You, America. Their very blood cries out of You, America. How dare You, America ask Me to bless Your land? How dare You, America! America, the very water supply, the very water You drink, You shower with, You wash Your clothes with, has the very blood of the innocent little ones within each and every drop. America, You have become wretched. You have become evil. You have become wicked. You, America have a blood lust. America, My charge against You is this. You love the blood of the little children You have murdered. America, all You care about is Your next election. All You care about is who You will vote for. All You care about is if Your vote will count. How about the box of ballots that have the names of all those little children who have been murdered in Your land, America through the scourge of abortion? I say to You, America, the stench of the blood of the innocent ones You have murdered is so strong that I cannot stand it any longer. America, You are under My divine judgment! The precious children America are not throw away rag dolls. They are precious in My sight. I formed them in their mother's wombs. How dare You, America think that I care about Your next election! I care about the very life I have created in the womb. My word says that if any harm comes to any of these little ones that person should have a millstone tied to them and be put into the depth of the sea. O, America, You are deluded, believing that I will bless Your land again. You, America showed Me the door and kicked Me out of Your land long ago. You are an abomination to Me. How dare You, America destroy the very lives of the young innocent ones and then call upon Me to bless Your land again. There is no repentance America in Your land for having done this to the very ones I created with My very own breath. As You have done this America to the very least of these ones, You have done it unto Me. America, Your nation, Your land is saturated and drenched with the blood of the little children, You have murdered. Where are those who say they are Mine standing up for Me and defending the blood of these little ones? Who will speak out against this demonic evil even if it costs you, your very life? This is a scourge

against You, America and soon Your destruction will be complete. You, America have sown to the wind and You will now reap the whirlwind!"
